Education

BSc (Hons) Forensic Computing / University of Central Lancashire

SEPTEMBER 2015 - MAY 2018, PRESTON, ENGLAND

AWS Certified Cloud Practitioner / Amazon Web Services

MARCH 2019 - MARCH 2022, ENGLAND

Experience

Lead Software Engineer/Full-Stack Developer / Freelance
APRIL 2020 - PRESENT, BARCELONA, SPAIN

I have been working remotely with a machine learning and computer vision based company as their lead software engineer and full-stack developer.

As the lead software engineer, it has been my responsibility to maintain and update their existing back-end and front-end infrastructure, and implement serverless architecture.

Python Developer / CiiVSOFT
APRIL 2019 - FEBRUARY 2020, DARESBURY, ENGLAND

Using asynchronous programming, natural language processing and algorithms, I was involved in updating the existing codebase and creating new infrastructure based on client requirements in a start-up environment.

Junior Cloud Engineer / CDL
JUNE 2018 - APRIL 2019, STOCKPORT, ENGLAND

Collaborating with in-house development teams, it was my responsibility to understand their requirements, and to plan and develop their cloud infrastructure, taking into consideration Infrastructure as Code, and AWS best practices.
